

### Full-Time Employment:

#### Current Employment:

July 2016-Present – White Stuff Ltd., London

Title: Content Development Manager

Duties: As well as continuing the same development duties as per my Online Content Developer role, I am also responsible for managerial duties for the Junior Content Developer and contractor roles.

#### Previous Employment:

July 2014-July 2016 – White Stuff Ltd., London

Title: Online Content Developer

Duties: I was responsible for the development and maintenance of the company's websites (.com and .de) in terms of adaptive and responsive article pages and landing page content. Previous duties have included email development, and the creation and presentation of wireframes and concepts for major projects to senior management.

March 2013-July 2014 – Pro Direct Sport, Newton Abbot

Title: CSS/HTML Editor

Duties: I was responsible for the Front-End Web Development and maintenance of the group's UK and International websites, development of standards-compliant, static and fully responsive articles for brands including Nike, Adidas and Puma as well as research into emerging technologies.

September 2012-January 2013 - Plymouth City Council, Plymouth

Title: E-Planning & Graphics Officer (Part-Time with Full-Time extension)

Duties: Creation and adaption of Print Work using Adobe InDesign, working with security-sensitive documents alongside other departments and authorities.

#### Year In Industry:

October 2006-August 2007 - Website Vision Ltd, Exeter

Title: Website Developer

### Skills:

#### Coding Languages & Software Experience:

HTML5	CSS3	JavaScript / jQuery
Foundation	Bootstrap	Visual Studio Code
Sublime Text	Adobe Dreamweaver	Axure RP
Adobe Photoshop	Intershop CMS	

During employment at White Stuff Ltd. I have been responsible for producing high-priority, fully-responsive article content for the new platform launch in a limited timeframe. This work included transferring non-responsive and responsive pages from the previous platform using Bootstrap alongside the Junior Content Developer to ensure they are SEO-friendly, accessible and match the original layout designed by the Creative team. The project required excellent communication skills with both internal and external teams and agile working techniques to ensure that the content was delivered on time.

### Education:
